

The Course :

Folding Boom 22 Tonne & Under Operator

The Folding Boom 22 Tonnes & Under Crane Operator Course Includes 3 core components :
Level 1 Rigger Certification, Common Crane Core Theory and Level A Full Scope Certification

After 5 days, you are fully prepared for your Full Scope Certification theory and practical exams to become a certified crane operator. Upon successful completion of the assessment you become a certified Folding Boom 22 Tonne & Under operator with no restrictions.

Taught by an accomplished Red Seal crane operator and instructor, the Full Scope certification training program combines in-class content with practical experience. Students are provided access to cranes to gain hours of operation and learn how to operate folding boom cranes one-on-one with a certified operator. The goal of the Full Scope training program is to equip you for the Full Scope Assessment and to provide additional opportunities to train to be safe and confident crane operators in the workforce.

Course Outline

- Pre-operational inspection
- Crane Set-up and hazard assessment
- Level 1 **Rigging Certification Course**
- Load charts
- Radio communications and hand signals
- Folding boom orientation including setup, load lifting, load control and demobilization
- WorksafeBC Regulations, ASME Codes and CSA Standards
- Written lift plans for critical lifts
- Equipment logbook

Assessment

Assessment is completed by a Fulford Certification assessor, who determines if you pass or fail. After you are certified as a Folding Boom 22 Tonne & Under crane operator, You may begin your career with no operating restrictions.

If you want to take the next step and operate hydraulic cranes, you may submit an application to the Industry Training Authority (ITA) and register as an apprentice for your crane Type.
