-  1844 842 5141
-  [training@bigfootcrane.com](mailto:training@bigfootcrane.com)
-  [academy.bigfootcrane.com](http://academy.bigfootcrane.com)

Taught by an accomplished crane instructor and Rigger Certifier, the Level 2 Rigger Certification Course combines in-class content with practical experience. Students receive classroom theory and hands on practical training including calculating load weights, finding load center of gravity, rigging loads and making actual crane lifts giving direction to the crane operator. The goal of the Level 2 training program is to equip you for a safe career as a knowledgeable and confident rigger or rigging supervisor.

## Course Outline

### Complex Load Calculations

- Calculate Complex Load Weights
- Calculate Complex Combined Load Centre of Gravity

### Sling Tension Review

- Sling Tension Calculations for Symmetrically Rigged Loads
- Use of Sling Capacity Charts

### Non-Symmetrical Sling Tension Calculations

- Share of Load Calculations
- Off-centre Sling Tension Calculations
- Off-centre and Unequal Height Sling Tension Calculations

### Below the Hook Devices

Inspection & Correct Use:

- Spreader Bars → Lifting Beams
